We Teach the Skills of Conceptual Thinking!®

**MTGK Institute was founded in 1998 by Texas native Dr. Tommy Yuan, Ph.D.**

- Helps students understand mathematics and apply it to the world around them.
- Explains HOW to use specific calculations and WHY those calculations lead to the answer.
- Enriches math curriculum taught in schools by explaining HOW formulas are studied and applied.
- Teaches invaluable problem-solving skills that are useful for all facets of life.

MTGK Summer Math courses will be held twice a week for a total of six weeks, focusing on teaching the skills of solving word problems. Concepts will be refined and clarified and our students will go through the process of solving the word problems by answering a sequence of leading questions asked by our certified instructors.

Is your child ready to **stretch** their comprehensive, and cognitive math abilities?

Let MTGK teach them the skills of conceptual thinking!

**Procedures:**

- ◆ Open House for Summer/Fall 2017 Registration on May,14, 2017.
- ◆ Submit application form with \$30 application fee (non-refundable, cash only).
- ◆ Schedule admission test date and time. Seat reservation on a first come/first serve basis.
- ◆ Student will be recommended to the appropriate class based on their performance in the admission test.
